

M.A. LINGUISTICS

Semester-I

19LINC101: Language and Linguistics

Course Outcomes:

At the end of the course, the student will be able to

CO1: Understand language structures and functioning of the language.

CO2: Classify ancient and traditional perspectives of language use in the society.

CO3: Analyse the Grammatical Theories of Western countries as well as India

CO4: Evaluate the relationship between language and society

CO5: Understand the application of linguistics on other related disciplines

19LINC102: Phonetics

Course Outcomes:

At the end of the course, the student will be able to

CO1: Understand and describe the structure of the speech organs and their function and the basic methods of articulation

CO2: Describe the most important categories of vowels and consonants.

CO3: Describe the supra-segmental features of language

CO4: Analyse the acoustic property of speech sounds

CO5: Apply the IPA, extIPA to transcribe language data

19LINC103 : Morphology

Course Outcomes:

At the end of the course the students will be able to

CO1: Understand the internal organization of words in languages.

CO2: Analyse the parts of speech.

CO3: Classify the words based on morphological principles.

CO4: Describe and Evaluate the process of word formation.

CO5: Understand the characteristics of seamless morphology

19LINC104: History of Linguistics

Course Outcomes:

At the end of the course the students will be able to

CO1: Understand the history of linguistics and changes of languages through periods

CO2: Compare and contrast the philosophy of Linguistic schools of India and abroad

CO3: Evaluate the theories of medieval linguistic with modern period

CO4: Describe the genetic relationships of languages

CO5: Compare the latest developments in Europe, America, and Asian countries

19LINC201: Phonemics

Course Outcomes:

At the end of the course the students will be able to

CO1: Understand the nature and basic concepts of phone, phoneme, and allophone.

CO2: Gather and collate the spoken data of any language for phonemic analysis

CO3: Analyse the given data using the principles and procedures of phonemics

CO4: Evaluate phonemes and allophones and form basic phonological pattern of any given language

CO5: Compare and classify various theoretical models of phonology according to the nature of the language.

Semester-II

19LINC202: Historical Linguistics and South Asian Language Families

Course Outcomes:

At the end of the course the students will be able to

CO1: Understand the nature and cause of language change

CO2: Compare the components of grammar like phonology, morphology and 24 semantics

CO3: Reconstruct the proto forms

CO4: Determine the linguistic innovations of a languages

CO5: Understand the notion of language family and cognates

19LINC203: Syntax**Course Outcomes:**

At the end of the course the students will be able to

CO1: Understand the phrase structure grammar.

CO2: Apply the concepts of various syntactic theories and differences among them.

CO3: Analyse and Evaluate the role of syntactical components.

CO4: Differtiate NP and VP structures

CO5: Understand the cognitive grammer and compare other syntactic theories.

19LINC204: Semantics and Pragmatics**Course Outcomes:**

At the end of the course the students will be able to

CO1: Have insight into basic issues of linguistic semantics, including how linguistic expressions relate to entities in the world, meaning relations between linguistic expressions, and the relation between meaning and truth.

CO2: Have awareness into basic issues in pragmatics, including how context and pragmatic principles affect interpretation.

CO3: Have vision into how semantic and pragmatics interact and relate to neighboring fields such as lexical theory, morphology and syntax.

CO4: Understand how and why language differs from other communication systems, and how language is employed to communicate various types of meaning.

CO5: Describe and analyze how people handle and exploit various semantic and pragmatic phenomena in everyday communication.

SEMESTER-III**19LINC301: Psycholinguistics****Course Outcomes:**

At the end of the course the students will be able to

CO1: Identify the language faculty and functions of the brain

CO2: Understand the major issues found in acquisition and perception

CO3: Understand the processes involved in sentence formation

CO4: Describe the discourse structure

CO5: Classify the language disorder.

19LINC302: Sociolinguistics**Course Outcomes:**

At the end of the course the students will be able to

CO1: Relate the social variables and linguistic variables

CO2: Describe the interdependence of language and society

CO3: Identify the language varieties

CO4: Understand language attitudes

CO5: Critically evaluate language planning theories.

19LINC303: Field Linguistics and Research Methods

Course Outcomes:

At the end of the course the students will be able to

CO1: Understand the field Linguistic techniques

CO2: Equip the student in obtaining technical knowledge of corpus

CO3: Identify the phonological description of Language

CO4: Analyse the data in all linguistic levels

CO5: Prepare the questionnaire.

SEMESTER - IV

19LINC401: Computational Linguistics

Course Outcomes:

At the end of the course the students will be able to

CO1: Understand the basics of linguistic applications in computational linguistics.

CO2: Describe the relationship between computer science and linguistics knowledge.

CO3: Discuss with current trends in computational, phonological, computational morphological and computational syntactical knowledge.

CO4: Describe basic concepts semantics and knowledge representation in machine readable dictionary

CO5: Apply the techniques for MT, Language Teaching, Corpora and Speech synthesis.

19LINC402: Comparative Dravidian

Course Outcomes:

At the end of the course the students will be able to

CO1: Describe basic concepts of Dravidian Languages

CO2: Classify vowels and their developments- short vs long alterations

CO3: Identify the noun morphology and its classification

CO4: Acquired knowledge of various language families and their sub groups

CO5: Classify and compare the verb Morphology of Dravidian Languages

19LINC403: Dissertation

Course Outcomes:

At the end of the course the students will be able to

CO1: Get enough exposure towards research methodology

CO2: Get practical knowledge in field work

CO3: Identify the research issues

CO4: Make research tools

CO5: Go for further higher level research

DEPARTMENT ELECTIVE

19LINE1: Soft Skills

Course Outcomes:

At the end of the course the students will be able to

CO1: Understand the important thing in the life is not the triumph but the struggle.

CO2: Pick what ever we want to communicate with reasonable effort as being fair consistently

CO3: Gain confidence and trust themselves assiduously build over the years

CO4: Enthuse themselves and reap the enormous benefits in their profession

CO5: Evaluate and criticize themselves

19LINE2: Aspects of Translation

Course Outcomes:

At the end of the course the students will be able to

- CO1: Understand the translation process between SL and TL
- CO2: Classify the types of translation
- CO3: Apply the translation theories
- CO4: Relate the cultural barriers
- CO5: Apply the translation methods

19LINE3: Discourse Analysis**Course Outcomes:**

At the end of the course the students will be able to

- CO1: Use language appropriately using theories of discourse
- CO2: Know how language structure and language use is interrelated
- CO3: Understand how cultural aspects are expressed through language
- CO4: Able to do critical analysis of Discourse
- CO5: Can make case studies in Discourse analysis.

19LINE4: Folklore**Course Outcomes:**

At the end of the course the students will be able to

- CO1: Understand various genres of Folk literature
- CO2: Document various folk forms.
- CO3: Classify and analysis the folk text
- CO4: Gather and collect the folk data with the learnt techniques
- CO5: Apply folkloristic to other discipline.

19LINE5. Lexicography**Course Outcomes:**

At the end of the course the students will be able to

- CO1: Do practical lexicography
- CO2: Understand semantic, syntagmatic, and paradigmatic relationships of the words
- CO3: Link the language data and usage contexts
- CO4: Create the specialized dictionaries
- CO5: Select equivalents in bi and multi lingual dictionaries

19LINE6. Clinical Linguistics**Course Outcomes:**

At the end of the course the students will be able to

- CO1: Discuss and classify the articulation, fluency and voice disorders.
- CO2: Describe and demonstrate theoretical models clinical phonology and its implications for therapy.
- CO3: List out the major issues in the areas of morphology and syntax in various disorders.
- CO4: Analyse the various aphasic disorders linguistically
- CO5: Evaluate the language issues and Plan Interventions according to the language disorder

19LINE7. Language Teaching Methods**Course Outcomes:**

At the end of the course the students will be able to

- CO1: Understand and do the contrastive analysis
- CO2: Acquire knowledge of various language skills
- CO3: Use various language teaching methods for teaching a language.

CO4: Understand the basic concept of language testing and evaluation

CO5: Identify the language errors and its classifications

INTERDEPARTMENT ELECTIVE

19LINX1: General Linguistics (T/M-E/M)

Course Outcomes:

At the end of the course the students will be able to

CO1: Analyse the language using scientific methods

CO2: Differentiate the speech sounds

CO3: Identify the grammatical structure of words

CO4: Explore the sentences of languages

CO5: Understand the meaning of words in different contexts.

19LINX2: Applied Linguistics (EM/ TM)

Course Outcomes:

At the end of the course the students will be able to

CO1: Know the translation techniques.

CO2: Raise the basic language skills

CO3: Understand the basis of computational linguistics

CO4: Enrich the technical vocabulary

CO5: Understand the strategies of language teaching and learning

19LINX3: Language and Mass Communication (T/M –E/M)

Course Outcomes:

At the end of the course the students will be able to

CO1: Understand the language and its components, and relation with culture

CO2: Apply the concept and models in communication system

CO3: Acquaint the knowledge and role of mass communication in society

CO4: Assort the media and comprehend its role in society

CO5: Enhance the correspondence in business parlance.

VALUE ADDED COURSES

19LINV1- Intercultural Communication

Course Outcomes:

At the end of the course the students will be able to

CO1: Inculcate the concepts of cultural contact, in India and other countries.

CO2: Identify and describe the various aspects of culture which affect a person's worldview, values, and behaviour.

CO3: Understand the co- cultures

CO4: Understand the influence of culture in verbal and nonverbal communication

CO5: Understand the social injustices

19LINV2- Advanced Level Intercultural Communication

Course Outcomes:

At the end of the course the students will be able to

CO1: Expand the ability to think critically about vital problems and controversies in social, scientific, economic and cultural life stemming from differences of gender, race, and class.

CO2: Comprehend the diversity of knowledge, experiences, values, world views, traditions and achievements represented by the cultures.

CO3: Develop in students the ability to read a culture critically through expressions and representations indigenous and exogenous to that culture.

CO4: Become aware of the causes and effects of structured inequalities and prejudicial exclusion rooted in race, class, gender, etc.,

CO5: Expand the ability to think critically about vital problems and controversies in 52 social, scientific, economic and cultural life stemming from differences of gender, race, disability, class
