

## **M. A. Linguistics Programme**

### **Programme Outcomes**

PO1: Apply the knowledge of language fundamentals and various literatures in society, computers, psychology, cognitive science and medicine.

PO2: Formulate, solve and analyze complex problems in variety of domains that constitute the core of language and literature knowledge, including familiarity with diverse questions of interest in the areas of (and interfaces between) structures of language and aesthetics of literature.

PO3: Apply the acquired knowledge for analyzing language and writing in appropriate genres and modes for a variety of purposes and audiences and provide solutions to societal and environmental contexts for problems related to language change, policy and planning.

PO4: Design and conduct research, analyse and interpret data to provide valid conclusions in the field of literature and in the descriptive as well as applied language studies.

PO5: Select and apply appropriate modern theories and techniques including cognitive, psychological, biological, cultural, and social factors for language study and research.

PO6: Gain exposure to attain knowledge and understand interdisciplinary and multidisciplinary linguistic and literary approaches.

PO7: Acquire professional and intellectual integrity, code of conduct and ethics on communicational practices, understanding responsibilities and norms for sustainable development of society.

PO8: Interact with the specific linguistic community and with society at large, through critical conversations and prepare, organize, and deliver their work to the public through speaking and writing.

PO9: Understand the aesthetic and scientific concepts of language and demonstrate the knowledge as a skilled person in teams and multidisciplinary tasks in their profession.

PO10: Appreciate the need for self-preparation and life-long learning independently in the broadest context of language challenges in the context of multilingualism and globalization.

### **Programme Specific Outcomes**

At the end of the programme, the student will be able to

PSO1: Understand the nature and basic concepts of Phonetics, Phonology, Morphology, Semantics, Pragmatics and Discourse Analysis.

PSO2: Assort the Phonetic transcription, Phonemic Analysis, Morphological parsing, Syntactic parsing and Analysis, Semantic mappings and Discourse patterns.

PSO3: Analyse and Adopt procedures of Psycho, Clinical, Computational Linguistics and Translation

PSO4: Grasp linguistic principles and Incorporate procedures in Analysing languages (including, second/foreign, infant to adult, endangered, tribal, and disordered), language teaching methodologies, compiling dictionaries, according to developing modern needs

PSO5: Follow the procedures as per laboratory standards in the areas of Phonetics, language teaching, speech synthesis, computational linguistics, and Discourse analysis (typically developing and pathological)
