NATIONAL SEMINAR ON

IMMUNOLOGY AND IMMUNOTECHNOLOGY RESEARCH - 2023

ANNAMALAI UNIVERSITY (Accredited with 'A+' Grade by NAAC)

Venue: CAS in Marine Biology

Date: July 27-28 2023

About the SEMINAR: The current seminar "Immunology and Immunotechnology" focuses on an overview of immune system and how biotechnology and immunology are interrelated. The purpose of this seminar is to develop a general idea of the application of biotechnological techniques and principles in understanding immune system for better diagnosis and treatment of diseases. It can provide a concise overview of basic immunology for students who have not studied the subject before but need immunology and immunotechnology as background. This seminar will provide national and international researchers, clinicians, and public specialists with an up-to-date view on the rapidly expanding knowledge of the immune system and its close relationship to the clinical disease occurrence, development, diagnosis, treatment and prevention, and the development and industrialization of biological technology. We believe this programme will be an event that promotes national academic exchanges and cooperation in the field of Immunology.

Why need it? The seminar is targeting research scholars, College /University faculty members, young scientist and company researchers as well as management staff in the Aquaculture and Biotechnology industry. The seminar is specifically planned and geared for the participants to have immune-techniques.

Registration Fee: Academic Staff - Rs.1,000*/-Research Students - Rs. 500*/- *Accommodation charge separate (Rs.350/-per day). The registration fees include seminar materials, working lunch & refreshment. The registration fee may be sent by D.D. drawn in favour of The Registrar, Annamalai University payable at Annamalai Nagar/Chidambaram branch along with **duly filled Registration form on or before 10th July 2023.**
